## REFLECT THE REAL YOU

Mirrored Image's purpose is to "Reflect The REAL You." It's to bring out that inner light so that you can be your most beautiful self, inside and out.

These treatments have been handpicked to enhance the "you" that is already beautiful. Knowing that great skin starts from the inside, I follow a mind-body-spirit approach. I've had the pleasure of working with the top Chicago & Wisconsin based plastic surgeons, dermatologists, and general physicians to create these colorful, proactive, restorative & effective treatments for my clients. Utilizing my 15 years of clinical, professional hands-on experience, and current relative research, I provide treatments utilizing the most advanced skin-care technology available today. Let me love on you and your skin today- you won't regret it!

~Melissa

## DESCRIPTIONS

**HydraFacial w/ Dermaplaning (60 min)** This revolutionary treatment uses super serums to deeply cleanse, gently exfoliate, resurface & nourish the skin to give you instant results from one powerful wand, leaving you with the ultimate glow!

**Microdermabrasion w/ Dermaplaning (60 min)** An intense cleansing and exfoliating procedure that uses a diamond-head tip & suction to get you beautiful results. Encourages collagen production, circulation & oxygenation to the cell-- allowing them to work properly to give you stunningly fresh, glowing skin.

**Bone Marrow Stem Cell Microneedling w/ Dermaplaning (90 Min)** A concentrated serum of bone marrow stem cell cytokines created to build the most amount of collagen and elastin & maximize the results of each treatment, this microneedling is not like any other session out there! Its very purpose is to infuse your skin with the nutrients it needs to maximize collagen & elastin in 1 session & to quickly repair the skin, leaving you with minimal down-time.

**IPL Skin Rejuvenation w/ Dermaplaning (60 min)** This treatment uses an Intense Pulsed Light Laser to target age spots, sun damage, vascularities, broken blood vessels & skin conditions such as rosacea. Different wavelengths of light remove unwanted damage from the skin & is less harmful to the skin than most other laser treatments.

**Dermaplaning (30 Min)** Using a specialized blade, several layers of dead skin cells & vellus hair are meticulously removed to maximize product penetration and absorption & give you instant baby smooth brightened skin.

## DESCRIPTIONS

**Oxygen Peel (45 min)** The best peel with no downtime. Using oxygen, lactic acid, aloe vera & green tea, this peel deeply cleanses your pores all while delivering oxygen & nutrients into your cells. The result is clean, glowing, toned & tightened skin.

**Chocolate Power Skin Rescue Peel (45 min)** This peel uses lactic acid, cocoa, resveratrol, acai & aloe vera to strengthen & refine the skin. It's extremely anti-aging as it restores & stimulates collagen and glycosaminoglycan production. It helps reduce transepidermal water loss & enhances exfoliation without irritation.

**Vitamin A & TCA Peel (45 min)** An aggressive peel w/ exfoliation- 10% TCA, 10% Glycolic & 5% Retinol. It will draw out hyperpigmentation, melasma and post acne scars, and smooth fine surface wrinkles through stimulation of reproductive collagen. This cocktail of anti-inflammatory botanicals & natural tyrosinase inhibitors reduces the oxidative phases of melanin synthesis & post procedural hyperpigmentation.

**5 Berry Pigment Control Peel (45 min)** This intense peel contains 7% TCA and is sure to provide excellent results. Ideal for hyperpigmentation, acne & wrinkles, this may require more downtime, 5-7 days depending on how many layers are used, but will leave your skin bright, smooth & beautiful.

**Salicylic Acid Peel (45 min)** Strong exfoliation & deep mitotic (healthy tissue regrowth) stimulation, resulting in less oil production and clear skin.

## DESCRIPTIONS

**Jessner's Peel (45 min)** This is a more aggressive peel, containing 14% salicylic acid, 14% resorcinol & 14% lactic acid to deeply exfoliate, oxygenate & detoxify the skin while helping to catalyze metabolic functions. Great for acne and deep wrinkles.

**Red Carpet Facial (60 min)** If you want a truly relaxing, blissful experience, this is the facial for you! I provide a peaceful massage using an organic CBD balancing formula. Your body, mind, and skin will leave transformed!

**Anti-Aging Stem Cell Facial (60 min)** Radio frequency is used to combat the signs of aging, wrinkles and saggy skin. It lifts and firms the skin by using electrical energy waves to heat the deep layer of tissue causing collagen and elastin production coupled with bone marrow stem cell cytokine infusion.

**Microcurrent Facial (60 min)** This pain free relaxing treatment is a workout for the muscles of the face. It uses electricity to stimulate collagen and tighten the skin's appearance.

**Tag & Mole Removal (10-30 min)** Tags & Skin growths can be removed utilizing the ionic carbonization tool. Only a few seconds and the unwanted growth is removed.

**Laser Hair Removal (15-50 min)** Permanently remove unwanted hair with IPL laser, multiple treatments are recommended for best results.

**Waxing (15-50 min)** Utilizing soft and hard wax & the best techniques to remove hair with minimal discomfort.
